

# Package ‘isnullptr’

September 28, 2017

**Title** Check if an ‘externalptr’ is a Null Pointer

**Version** 1.0.1

**Description** Check if an ‘externalptr’ is a null pointer.

R does currently not have a native function for that purpose.

This package contains a C function that returns TRUE in case of a null pointer.

**Depends** R (>= 3.0)

**License** GPL-3

**Encoding** UTF-8

**LazyData** true

**RoxygenNote** 6.0.1

**NeedsCompilation** yes

**Author** Jonas Förster [aut, cre]

**Maintainer** Jonas Förster <jonasfoerster@gmail.com>

**Repository** CRAN

**Date/Publication** 2017-09-28 14:31:30 UTC

isnullptr . . . . . 1

**Index** 3

---

isnullptr                    *Check if an ‘externalptr’ is a null pointer*

---

### Description

isnullptr checks if an object of type ‘externalptr’ is a null pointer.

### Usage

isnullptr(pointer)

**Arguments**

pointer                    object of type 'externalptr'

**Value**

TRUE if null pointer, FALSE otherwise

**Examples**

```
isnullptr(new("externalptr"))  
isnullptr("any_data")
```
